PURDUE GLOBAL  
UNIVERSITY

# Overview

This session will examine how the Composition and Writing Across the Curriculum Department employs two ongoing series of faculty led sessions to foster continuous development specifically tailored to the needs of its faculty.

# Session Outcomes

## Explore

Explore the research behind employing faculty-led development in higher education;

## Define

Define the specific development needs in the Department of Composition;

## Discuss

Discuss how the department meets these needs; and

## Examine

Examine the specific examples of faculty lead development sessions.

# Why Focus on Faculty Development?

McKee & Tewv (2013) call faculty development a complicated but necessary discussion in higher education.

Kane, et. al (2016) state that because it is so impactful, higher education institutions must make faculty development a priority

Jackson, Jones, and Rodriguez (2010). concludes that developing instructor effectiveness and engagement directly impacts student learning and success.

# Drawbacks to Traditional Development Models

Steinert (2010) says static content such as workshops, seminars, and training courses often dominate faculty development.

Koch (2008) argues that this static, prescribed content squanders the unique resources faculty bring, including individual expertise skills sets, experiences, and motivating factors.

McConnell, et. al (2013) maintains that these structured delivery methods neglect the needs of individual faculty and lack organic discovery and discussion about emerging concepts.

# Distance Education and Traditional Faculty Development

## Sense of Isolation

- Cady and Rearden (2009) indicate that for distance educators, traditional, static development contributes to a sense of isolation from peers.

## Lack of Trust

- Cox (2012) finds that such content also fails to build trust and community due to a lack of group problem-solving elements.

## Neglects Faculty Needs

- McAllister, Oprescu, and Jones (2014) maintain that these factors also add to distance educators' perceptions that their professional and career goals are not a priority.

## **Effective Faculty Development – PG and Composition/WAC**

# Characteristics of Effective Faculty Development Present at PG

## Priorities

- For Higher Education, Bedford and Rossow (2017) note that effective development of faculty encompasses individual, department, and institutional priorities.

## Approaches

- Herman (2012) notes that diverse needs and experiences mean that faculty development and support needs innovative and personalized approaches

## Primary Goal

- As Bedford and Rossow (2017) conclude, what faculty require from development takes precedence.

## Delivery

- Mujtaba (2011) argues that faculty led development addresses all of the key factors missing from more traditional models.

# How Faculty Development at Purdue Global Differs

Purdue Global shows a unique commitment to faculty training and support.

PG fosters a culture of faculty-centric development throughout the University from its Center for Teaching and Learning through school, program, and department level offerings.

PG emphasizes professional, career and personal growth for all faculty.

# Faculty Development in Composition/WAC

To address specific faculty needs, the Composition and WAC Department developed two faculty driven development series – Educator Exchanges and Brightspace Busting.

The Assistant Chair who coordinates the two series, the FTA who created and manages Brightspace Busting, and a Full-Time Faculty member who has presented for and attended both will discuss the sessions.

They will share how they are organized, the topics they cover, and their impact on teaching and learning.

# BRIGHTSPACE BUSTING

Do you have questions about Brightspace? Are you looking for ways to work smarter, not harder? Do you have ideas to share? Then Brightspace Busting is for you! Brightspace Busting will be a 30-minute meeting held at 1 pm ET on the last Thursday of every month.

These informal sessions will review tips, tricks and techniques for maximizing the various tools offered in the Brightspace platform as well as offer instructors an open forum to ask questions, share their experiences and collaborate with colleagues.

We will cover a variety of topics, such as utilizing Intelligent Agents, managing CLA completion, and implementing various time saving methods for discussion, grading and outreach. These sessions will not be recorded, but materials and takeaways will be provided.

MORE  
TO  
COME...

OUR FIRST SESSION  
WILL BE HELD ON  
THURSDAY, JULY 21  
AT 1 PM ET.

BE ON THE LOOKOUT  
FOR A MEETING INVITATION  
WE HOPE TO SEE YOU  
THERE!

## What is Brightspace Busting?

---

- Informal faculty-development sessions focused on sharing techniques for maximizing the Brightspace Learning Management System (LMS).
- Instructors are provided an open forum to ask questions, share experiences and collaborate with colleagues regarding the session topic.

# How it Works

- Before developing session ideas, the department utilized Survey Monkey to gauge instructor interest, determine instructor availability and invite topic suggestions for sessions.
- Meetings are thirty minutes in length and held at the same time on the last Thursday of each month.
- Sessions are informal and not recorded in order to maximize faculty engagement.
- Materials and takeaways are provided.

# Topics Covered

Sessions cover a variety of topics, including:

- utilizing Intelligent Agents
- creating engaging announcements
- facilitating live seminars
- managing CLA completion
- making use of statistical tools
- implementing various time-saving strategies for discussion, grading, seminar, and outreach

# Brightspace Busting Goes Global!

In 2020, sessions will be one hour in length and held quarterly. These sessions will be open to the entire School of General Education (SoGE).
